

MIM Service	Member	Non-Member
<b><u>Design</u></b>		
For design assist and design build contracts, the MIM will assist the contractor with <u>preliminary</u> structural design, wall sections, details, fire ratings, energy code compliance, and movement joint layout with the goal of promoting masonry design.	Up to 4 hours per project and \$150/hr for additional time*	Not Included
<b><u>Pre-Bid</u></b>		
For other contract methods, the MIM will assist the contractor with <u>preliminary</u> structural design and related information with the intent to convert a different backup material (i.e. wood frame, cold-formed metal frame) to loadbearing masonry.	Up to 4 hours per project and \$150/hr for additional time*	Not Included
The MIM will provide recommendations based on industry publications and reports relating to masonry designs and details	Included*	Included
The MIM will act as the contractor's agent to develop alternate masonry designs with the intent to provide a cost saving alternate to the owner and design team.	Up to 4 hours per project and \$150/hr for additional time*	Not Included
<b><u>Construction</u></b>		
Site visits	Not Included	Not Included
The MIM will provide masonry code tolerances and published information relating to workmanship issues, but not provide their opinion.	Included*	Not Included
The MIM will recommend other engineers for services relating to designs that were not followed in the field.	Included*	Included
The MIM will review specifications and details and provide input and commentary to support efficient masonry design.	Included*	Not Included
The MIM will provide a pre-construction meeting agenda and review specifications and details to provide comments to the contractor prior to construction.	Up to 4 hours per project and \$150/hr for additional time*	Not Included
The MIM will respond to technical inquiries relating to design or construction best practices.	Up to 4 hours per project and \$150/hr for additional time*	Not Included
<p>* The MIM will allocate a maximum of 60% of the member dues to responding to these issues. Time incurred above that amount will be invoiced at \$150/hour (e.g. If a member pays \$899 in dues, they have \$540 of time included in their membership. At \$150/hour, this means they have 4 hours per year of technical assistance and will be invoiced at \$150/hour for time spent beyond that amount).</p>
